WHAT CUSTOMERS SAY ABOUT US

"I've recently started building simple applications with the Red Lion G7 series controller. I was tasked to modify an existing program to perform what seemed to be elaborate functions. Things like USB logging, serial port captures and bit manipulations were included in the changes. Along the way, I would run into some issues. Harold at technical support offered immediate and multiple solutions. With a little bit of knowledge and solid help from Harold, I was able to produce. Thank-you Harold."

Innovative Micro Devices Inc.

"We are very pleased with the business relationship we share with Landel Controls. Their timely responses to our needs, gives us confidences when dealing with our customers. The available resources, technical support, and product knowledge makes Landel Controls one of our preferred vendors. We have found their services to be dependable, friendly and open over the years. Their attention to detail and willingness to listen to our needs is extremely important to our company. "
